OUR COMMITMENT TO THE ENVIRONMENT

CORPORATE SOCIAL RESPONSIBILITY BY

Divani Collection Hotels
The pressures on our planet’s limited natural resources and the challenge of climate change require prompt and concerted action from us all. We take wide-ranging measures to protect biodiversity, reduce our consumption of water, energy and other resources, avoid waste, and combat climate change.

Sustainable Travel Pledge

After years of following sustainable practices and striving for a greener and more environmentally friendly future, we are happy to declare that we are the **first hotel chain in Greece** to sign the UNESCO sustainable travel pledge.
WATER AND ENERGY MANAGEMENT

- Installed water flow reducers in guestrooms and public areas, reducing annual water consumption.
- Implementation of room heating with natural gas proven to decrease harmful gas emissions, for example greenhouse gases, towards the environment. In addition, all heaters are controlled by BMS.
- In line with our commitment to reduce energy consumption, most of the hotel’s lighting has been replaced with LED light technology systems. LED light bulbs consume minimum energy and significantly reduce carbon dioxide emissions.
- Imposed Green cleaning techniques and products to avoid the use of those containing toxic chemicals.
- Installed water flow reducers in guestrooms and public areas, reducing annual water consumption.
Modernization of the old pressure pumps with a new type Inverter WILO Quadruple pump.

Conversion of heating oil & ZNX boilers into natural gas boilers, in order to protect the environment.

We believe that the rapid transition to electric mobility is essential to building a sustainable future for all. That’s why an electric car charging station is available and is offered complimentary of charge to all hotel guests. Charger Details: Wallbox plus 22Kw, 16A, 380V, 50Hz.

Applied thermal facade throughout the hotel. This thermal facade is used to save more energy.
The hotel carries out separate sorting activities for materials such as cartons, office paper, glass bottles, plastic containers, batteries, metals, electronic devices, construction materials, soap, printer ink, lamps, and frying oils that are given to third parties for recycling. In addition, a cooperation has been made with the municipality for bio-recycling.
